Education

Indian Institute of Information Technology Vadodara - ICD, Computer Science and Engineering

November 2022 - June 2026

- **Coursework:** Data Structures, Algorithms, OOPs, Database Management System, Software Engineering, Computer Networks, Operating Systems, Artificial Intelligence, Machine Learning,

Experience

BigShot Intern - StockGro

October 2024 - December 2024

- **Spearheaded** financial content creation and marketing strategies, increasing user engagement by **20%** on StockGro, a leading mock trading platform.
- Hosted **4+** interactive financial literacy sessions and analyzed **1000+** market trends to craft insightful investment strategies, enhancing stock market education for **100,000+** users.

Software Developer - IIITV-ICD Office Order Application Project

September 2024 - December 2024

- Architected a **Flutter-based office order system** for IIITV-ICD featuring an intuitive, user-friendly interface and advanced search filters. Optimized retrieval by **80%**, enhancing operational efficiency and accessibility for all users.
- Engineered a **secure, scalable backend** using Node.js, Express.js, and MongoDB, seamlessly integrating with Flutter for smooth functionality. Delivered the project **2 weeks early**, ensuring high performance, robust security, and scalability.

Freelance Mobile App Developer - Chanchal Chilled Water, Rajgarh

December 2024 - February 2025

- Implemented a **Flutter-based mobile app** serving **1,500+ users**, enabling online water charge payments and automating billing for **1,000+ monthly water bottle transactions**.
- Integrated **Firebase** for secure database management and deployed on Netlify, ensuring real-time updates and reducing manual workload by **70%**.

Skills

Programming Languages: C++, C, Python, Dart, LaTeX, HTML, CSS, JavaScript, TypeScript, SQL, MySQL, PostgreSQL, MATLAB

Technologies/Frameworks: Flutter, Firebase, Git/GitHub, Node.js, Express.js, Flask, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, OpenCV, WebRTC, WebSockets, MongoDB, TensorFlow, PyTorch, Janus, Kurento, MediaSoup

Soft Skills: Leadership, Developing effective solutions, Synthesizing actionable insights, Communication, Team Work, Project Management, Public Speaking, Decision Making

Achievements

- Pioneered a team of 4 to design an innovative solution at the IIITV-ICD Inter-Institute Hackathon, boosting efficiency by **30%** and securing **first place**, as recognized by a panel of 10+ industry experts.
- Secured a LeetCode rating of **1714** with **260+** solved questions, ranking in the **top 10%**.
- Secured a CodeChef rating of **1625 (3-star)** with a global rank of **17,265**.

Projects

Live Stream Platform

- Engineered a robust live streaming platform supporting **1,000+ streams**, integrating **WebRTC** for sub-**500ms** latency and media servers (Janus/MediaSoup) for **99.9% uptime** and scalability.
- Enhanced user engagement with real-time chat, emojis, and multi-host collaboration. Leveraged **AI** for automatic subtitles and used **Flutter** for cross-platform development, with MongoDB/PostgreSQL ensuring efficient user and stream data management and reduced time-to-market by **20%**.

AutoML Wizard

- Devised an **automated machine learning tool** that selects the best model for a given dataset by testing **10+ algorithms** and ranking them based on accuracy, achieving up to **20% improvement** in model selection efficiency. The tool allows users to upload datasets, specify problem types (classification/regression), and receive optimal model suggestions with detailed performance insights, **reducing manual effort by 50%**.
- Built a **robust, scalable solution** using **Python, Scikit-learn, Pandas, Matplotlib, Seaborn, and Flask**, ensuring seamless functionality and an intuitive user experience. The tool streamlines the model selection process, enabling users to make data-driven decisions efficiently.

Face Recognition-Based Attendance System

- Orchestrated an **AI-powered attendance system** that uses face recognition for seamless and autonomous student attendance tracking, achieving **95%+** accuracy in facial matching and reducing attendance marking time by **80%**.
- Implemented using Flask, SQLite, and the face_recognition library, featuring **real-time processing**, a modern UI, and integrated attendance logs for **100+** students per session.

Position of Responsibility

Technical Committee, President

Diu, Gujarat

- Secured election through a democratic process to lead as the **General Secretary** of the Institute for Technical Affairs and **Head of the Technical Committee**, managing **30+** major technical events and coordinating **50+ team members** annually across **12 months**.

May 2024 - Present

StockOps - Finance Club IIITV ICD, Joint Secretary

Diu, Gujarat

- Directed operations as **Joint Secretary** of StockOps, the Finance Club at IIIT Vadodara-ICD, orchestrating **2 major events**—a comprehensive financial workshop and a mock trading competition—engaging over **500+ participants**.

September 2023 - April 2024

8 months
