TECH SKILLS

- c programming
- python
- java (basics)
- Data strucutres
- tensorflow and pytorch
- data science
- machine learning
- deeplearning
- Generative AI (transformers)
- AI agents and Automation

SOFT SKILLS

- Teamwork
- Time Management
- Leadership
- Critical Thinking

LANGUAGES

- English
- Tamil

PROFILE

I am an AI researcher at Bannari Amman Institute of Technology building intelligent systems that think and evolve. I transform cutting-edge research into production—from LLMs to autonomous agents—thriving where complexity meets innovation. My mission: architect AI that defines tomorrow's technological frontier.

PROJECTS

Real Time Resume Analyser

- It analysis the real time score of a resume uploaded
- it is built using python language
- webframeworks are streamlit and SQLite

Hand sign preedictor

- It analysis the sign and report what it is.
- it is built using python language and YOLOv8 model
- webframeworks are gradio and SQLite

Text generator

- It generates text using a transformer model
- it is built using python language ,tennsorflow and pytorch
- webframeworks are gradio and SQLite

Image classifier

- It classifies image of butterfly using CNN
- it is built using python language ,tennsorflow and pytorch
- webframeworks are gradio and SQLite

CERTIFICATIONS

- Certified by Avinash Academy on C,C++,python basics
- NPTEL :Buisness fundamentals for entrepeuners

EDUCATION

school : M.S . Vidyalyaya Matriculation school 2011 - 2024
percentage :93 % (10 th std)
percentage :90 % (12 th std)

Bannri amman institute of technology 2024 - 2026
degree : B.TECH - Artificial intelligence and data science
cGPA: 8.28
